SELECT LIST OF

Bright and Mahogany Manufacturing Leaf.

RAGLAND’S CONQUEROR.—Until the development of the variety thus named, the originator hand failed to find his ideal of a Superb Bright Yellow possessing all the requisites demanded—a healthy, vigorous grower of the best form and finest texture, ripening early and uniformly and easily cured to the brightest color.

The Conqueror has no superior as a producer of the finest goods of the finest type grown, and will surely please the most exacting. It has come to stay.

Price, $1.50 per pound.

BONANZA.—A White Burley cross on Yellow Oronoko and a very superior one, possessing the qualities of both parents beautifully blended, and for the manufacturing types most popular and in the greatest demand, it is superior to either one of them. For, it is tougher than the Burley and more porous than the Oronoko, and therefore makes superior Wrappers, Cutters and Fillers. It stands the vicissitudes of seasons better than the Burley.

Price, $1.50 per pound.

SAFRANO.—A splendid cross of the Hyco on White Burley and a blending of color, form and
qualities of both, and one of the finest and most beautiful ever originated or planted on the Ragland Seed Farm.

The color when successfully cured, resembles its namesake, the Saffron rose—a rich saffron-yellow color, and in addition to high color, its product possesses a soft silky texture, and delightful flavor.

Price, $1.50 per pound.

GOLD FINDER.—A Yellow Oronoko crossed on White Burley, and in the estimation of some planters who have seen it growing, the most beautiful yet developed. Growing on the hill it is almost as white as the Burley; has the shape and habit of the Oronoko, and combines the best qualities of both.

It promises to prove a veritable Gold Finder in the hands of skilled planters, and will succeed admirably both East and West.

Price, $1.50 per pound.

BULLION.—A white Burley Cross on Hester; a stately, broad-leaved, well-formed, fine-fibred variety, that gives promise of great usefulness; uniting the best of the good qualities of its parents.

Bullion has the form and habit of the Hester, which is well nigh perfect; the leaves are larger and grow further apart vertically on the stalk than the Burley—a decided improvement apparent on inspection—and it possesses the fine texture of the Hester united to the porousness of the Burley—i. e., capacity to absorb manufacturing condiments.

Price, $1.50 per pound.
CLIMAX.—A cross of Burley on Sterling and a most decided acquisition to the Brights Lists, that cannot fail to win high favor, as it possesses every characteristic of a superlatively fine Bright. The newest, and bids fair to head the list. Recommended with confidence.

Price, $1.50 per pound.

All the Burley crosses on Eastern Brights herein named, grow and develop more rapidly, ripen earlier and more uniformly from top to bottom and are more thrifty every way when planted on sicilious soil than the White Burley. And these are important acquisitions where hardiness, thriftiness and early ripening are essential to the development of full, fine crops.

RAGLAND’S IMPROVED YELLOW ORONOKO.—Developed by careful continuous selection from the OLD STANDARD Yellow Oronoko, which has been more extensively planted for the yellow type than any other, and has given greater satisfaction than any of the older bright kinds. My seed of the IMPROVED are EXTRA SELECT and recommended with entire confidence.

Price, $1.50 per pound.

RAGLAND’S IMPROVED YELLOW PRY-OR.—Improved under the same methods as Ragland’s Improved Yellow Oronoko, superior to the old Yellow Pryor, itself a good variety. Its product is soft and tough like French kid, fine as satin, and commands top prices.

Price, $1.50 per pound.
OAK HILL YELLOW.—It cures easily a whitish yellow color, and is unsurpassed in delicacy of fibre.

A good judge said of it, "a real beauty and fine as split silk."

It has already won its way to favor, and is destined to become a favorite.
